Competitive with other vendors		

Brief description of contract requirements (as related to the proposed Statement of Work):

GSS was awarded a contract to supply laboratory products and equipment for scientific and clinical research to the government. The National Institutes of Health (NIH), part of the U.S. Department of Health and Human Services, awarded GSS a Long Term Contract in 1993 and the contract continues to the present day with annual renewals. Since 1993, GSS has had 15 contract completions with a renewal taking place as soon as the previous contract expires. GSS also stocks inventory at its warehouse in Reston in support of critical research programs. The contract initially had a paper transaction dollar limit of \$25,000 and the average annual sales total from the contract was \$500,000. GSS's overall Subcontract performance was measured around 98% and GSS rated extremely high for filling all of the customer's requests.
