Brief description of contract requirements (as related to the proposed Statement of Work):

GSS is subcontracted by Sandia National Laboratories to provide JIT Chemical supplies in Albuquerque, NM and in Livermore, CA. The contract ending June 30, 2010 is governed by the terms and conditions of the Lockheed Martin Agreement.

GSS is contracted to place and receive orders, receive products, bar-code, package and deliver products to individual campus areas, maintain inventory, provide chemical tracking, maintain local support, chemical knowledge, bar coding, along with supplying product documentation for C of As, C of Cs, and MSDS Datasheets. GSS cooperates with all Sandia division ES&H requirements and provisions for product handling. GSS provides services out of our fully owned and equipped facilities in Albuquerque, NM and Livermore, CA. The facilities house existing operational equipment, a chemical bunker, pallets, racks, refrigerators, freezers, computers, bar coding scanning equipment, and shrink wrap systems.

Each month GSS provides reports with a line-by-line breakdown for how many packages were received/delivered, how many pallets and how many stops were made with escort service. The report, in Excel or comma delimited format, contains the date of the order, the user who placed the order, all part numbers on the order, quantities, the user's email address, the project, task and department number, the unit price, extended line totals, and transaction totals. GSS deliveries are made by a CDL-HAZMAT Certified driver.
